

Mipa 1K-UV-Spachtel

perfect for spot and smart repair

Mipa 1K-UV-Spachtel is a high-quality, UV-drying 1K fine putty for quick and efficient filling for spot and smart repair.

- Fast drying by using an UV-LED or mercury vapour lamp (Hg lamp)
- Very good adhesion on steel, iron, aluminium and galvanized substrates
- Direct adhesion to ABS, PVC and PC
- Outstanding mechanical and chemical resistance of the putty surface
