

**Product description**

<b>Operational Sector :</b>	Mipa Sanding and polishing paste removes scratches and other damages from paint surfaces. Easier and cleaner to use, a slight to medium rub off will give a new gloss and finish to the treated area.
<b>Features :</b>	Mipa Sanding paste is free from silicon and therefore ideally suited for professional end users. It can be applied with machines and manually.
<b>Storage :</b>	At least 3 years, if stored in tightly closed original containers, protected against frost.
<b>Marking :</b>	VbF: n/a; Hazardous materials ordinance: n/a

**Application**

<b>Processing method:</b>	With a well impregnated lambs wool disc (Ø 180 mm) with machine application at 2000 r.p.m. Apply sanding paste by brush slightly on the surface to be treated.
<b>Application :</b>	Work surfaces of at max. 1 m <sup>2</sup> each per operation. Optimal gloss is reached by applying a second operation by hand or by applying a polish afterwards.
<b>Special remarks :</b>	Do not allow to set hard during application. Do not get pressure on the polishing machine. Shake well tin before application and stir afterwards until a creamy consistency is reached. Close it well after use.

**Disposal**

The packing has to be clean, dry and absolutely free from any rests of material. From plastic packings the metal has to be removed. Packings have to show the label of the latest filling.

All products should be disposed of in relation to the regulation of the environmental health authorities. Protect your environment.
