

# Mipa Reflektor-Spray

*Visibly safer*

Thanks to its special pigmentation, **Mipa Reflektor-Spray** guarantees excellent light reflection in the dark. Surfaces coated with this marking spray reflect incident light extremely effective so that those surfaces light up really bright. The effect is comparable to e.g. traffic signs that reflect the car headlights at night.

- for both interior and exterior use
- transparent/grey (at daylight)
- reflects incident light extremely effective
